

ON-SITE CARDIAC RISK PROFILE SCREENING

Do you know if you're at risk of having heart, liver, or kidney disease? Now is the time to participate in this simple test that could save your life. **Take 15 minutes out of your morning to Know Your Numbers.**

SEPTEMBER 17TH

7:00-9:00 am

JRW West Conference Room

The blood draw is fasting, NO food or beverage 8-10 hours prior to test (tea and coffee ok without cream or sugar)

Must be 18 years old or older.

**Please Bring Your Insurance Card
to the Screening**

The Cardiac Risk Profile is a full cholesterol and lipid profile that tests the following:

Cholesterol • Triglyceride
HDL • LDL • VLDL
Cholesterol /HDL Ratio
Glucose • Urea Nitrogen
Creatinine • Sodium • Potassium
Chloride • CO₂ • Calcium
Total Protein • Albumin
Globulin • Bilirubin
Alkaline Phosphatase
AST (SGOT) • ALT (SGPT)
Hemoglobin A1C

Results and an educational packet will be mailed to your home within two weeks.
